### **FMC Middleport Plant Recognized for Safety Excellence**

*Award from American Chemistry Council and the Responsible® Care Program*

MIDDLEPORT, N.Y. – The FMC Middleport Plant has been recognized for achievement in employee health and safety with a Responsible Care® Facility Safety Award from the American Chemistry Council (ACC).

The Middleport Plant received a Certificate of Excellence in the safety award category and the company was recognized overall with a Performance Award for helping the ACC meet industry safety and product stewardship targets, and an Energy Efficiency Award for manufacturing operations improvements through technical innovations, creative projects and novel procedures and actions. The awards were presented at the recent 2014 Responsible Care® Conference and Expo.

For the second consecutive year, FMC received the Responsible Care Performance Award.

"We're honored by the ACC's recognition of FMC's performance and track record of continued improvement in safety and energy efficiency," said Linda Froelich, director of Global Sustainability for FMC.

FMC is a member of the ACC and a participant in the Responsible Care program, the industry's premier voluntary environmental, health, safety and security initiative.
